I glanced at the slides and in my opinion, the slide presentation is relatively comprehensive albeit long, but it's timing seems a bit off. **Deliberative Process / Ex. 5**

Deliberative Process / Ex. 5 ?

I was under the impression that some time back Region 9 had developed a template for Tribal Nations to consider in developing Pollinator Protection Plans; however, not unlike many states, tribes have other competing priorities among which pollinators may not be represent a priority. **Deliberative Process / Ex. 5**

Deliberative Process / Ex. 5 ? Representatives from several Tribal Nations participated in the EPA/USDA/NASDA MP3 Symposium in 2016 and presumably have a background on pollinator protection plans. I am

Deliberative Process / Ex. 5

It is my understanding **Deliberative Process / Ex. 5**

Deliberative Process / Ex. 5

Also, in my opinion, **Deliberative Process / Ex. 5**

Deliberative Process / Ex. 5

I have embedded a few edits/comments in the slides.

Subject: Request for your input

Hi,

I just received this from EPA's Office of Tribal Affairs. Amanda Hauff (EPA/OTA) is preparing a presentation to the TPPC at the Tribal Lands and Environment Forum on how to start a pollinator plan for tribes.

The slide deck is very wordy and needs a ton of work, but if you have only 30 minutes to contribute to this effort, I believe it would be helpful. There may be some errors or incorrect information that really should be corrected in the presentation. If you don't have time to help out, that's OK, please just let me know.

I am attaching the draft presentation and I will also be meeting with Amanda tomorrow to discuss. I added a few comments to it so far...

Thanks in advance,

Mary
